

... and now for the **ALIVE** section of the weekly newsletter. **ALIVE** has played an important part in the return to school for both our children and staff. Each element of **ALIVE** plays a prominent role in everything we do in school, each week we place a special focus on one particular aspect. We will take a look at our three focus points so far **ACTIVE**, **LEARN** and **INTERACT**.

ACTIVE

LEARN

INTERACT

ACTIVE

Keeping active and playing safely!

Year 4 are pictured during a Yoga session, all of our children from Reception to Y6 have been feeling the benefits of their yoga activities. Nel from Y5 stated that he helps calm her down and is so relaxing. Also, Riley from Y5 has been enjoying Tag Rugby with the PE coach saying it's really fun.

Congratulations to Lena (80) from Y5 and Max (75) from Y6 for being Playground Challenge skipping champions for their respective years, a massive well done to both of you.

LEARN

Doing your best to learn!

John from Y5 has enjoyed ICT with Mr Triggs especially playing Minecraft and winning diamonds, this made him really happy. In Y5 Amelia has really enjoyed writing a draft diary account of a child evacuee in WW2. Below is a picture of Y4 working hard in Maths.

INTERACT

Interacting kindly and thoughtfully

A beautiful example of how our children interact so kindly and thoughtfully happened this week when Jacob returned to school for the first time. His classmates in Hawthorn spontaneously cheered, clapped and shouted his name as he walked into the classroom ... a very special moment.

With the current situation we are asking the children to interact as much as possible from a distance and this shows how well Year 2 are doing this.

VOLUNTEER

Being a friend to everyone!

EMOTIONS

Understanding your emotions and those of others
